Vistra Energy Reports First Quarter 2019 Results Above Consensus and Reaffirms 2019 Guidance

IRVING, Texas, May 3, 2019 /PRNewswire/ -- Vistra Energy Corp. (NYSE: VST):

Financial Highlights

- Delivered first quarter 2019 Ongoing Operations Adjusted EBITDA1 of \$815 million and Net Income from Ongoing Operations of \$238 million—results above consensus and in-line with management expectations for the quarter. Ongoing Operations Adjusted EBITDA results were nearly \$240 million better than first quarter 2018 results pro forma for the merger with Dynegy as a result of realization of merger value levers, favorable realized prices, and higher retail gross margin quarter-over-quarter.
- Reaffirmed 2019 full-year Ongoing Operations Adjusted EBITDA and Ongoing Operations Adjusted Free Cash Flow before Growth (FCFbG) guidance ranges of \$3.22 to \$3.42 billion and \$2.1 to \$2.3 billion, respectively2, highlighting the company's significant earnings power and EBITDA to free cash flow conversion of approximately 66%.

Capital Allocation Highlights

- Executed approximately \$1.053 billion of the previously authorized \$1.75 billion share repurchase program through April 25, 2019, reducing shares outstanding to approximately 483 million shares as of the same date, approximately 8 percent lower than Vistra's share count as of the Dynegy merger close on April 9, 2018.
- Paid initial quarterly dividend of \$0.125 per share on March 29, 2019 to shareholders of record as of March 15, 2019, an expected \$0.50 per share on an annual basis; Vistra management anticipates an annual dividend growth rate in the range of approximately 6-8 percent per share.

Growth Highlights

- Introduced new retail brand, Brighten Energy, in Illinois, Ohio, and Pennsylvania, and launched TXU Energy's new innovative product: Free Pass Plan, giving retail customers free electricity on the seven highest usage days per month, all year long.
- Announced agreement to acquire Crius Energy Trust at an estimated 4.0 times EV/EBITDA multiple, projected to be accretive to both EBITDA and Free Cash Flow and to exceed Vistra's investment threshold of mid- to high-teens unlevered returns; closing expected to occur in second quarter of 2019.
- Supported a change to the Multi-Pollutant Standard and Coal to Solar and Energy Storage legislation in Illinois facilitating the transition and redevelopment of downstate coal plant sites into utility-scale solar and energy storage.

Vistra has purchased approximately 44.5 million shares, lowering Vistra's shares outstanding to approximately 483 million as of April 25, 2019. About Non-GAAP Financial Measures and Items Affecting Comparability

"Adjusted EBITDA" (EBITDA as adjusted for unrealized gains or losses from hedging activities, tax receivable agreement impacts,

reorganization items, and certain other items described from time to time in Vistra Energy's earnings releases),"Adjusted Free Cash Flow before Growth" (or "Adjusted FCFbG") (cash from operating activities excluding changes in margin deposits and working capital and adjusted for capital expenditures (including capital expenditures for growth investments), other net investment activities, preferred stock dividends, and other items described from time to time in Vistra Energy's earnings releases), "Ongoing Operations Adjusted EBITDA" (adjusted EBITDA less adjusted EBITDA from Asset Closure segment) and "Ongoing Operations Adjusted Free Cash Flow before Growth" or "Ongoing Operations Adjusted FCFbG" (adjusted free cash flow before growth less cash flow from operating activities from Asset Closure segment before growth), are "non-GAAP financial measures." A non-GAAP financial measure is a numerical measure of financial performance that excludes or includes amounts so as to be different than the most directly comparable measure calculated and presented in accordance with GAAP in Vistra Energy's consolidated statements of operations, comprehensive income, changes in stockholders' equity and cash flows. Non-GAAP financial measures should not be considered in isolation or as a substitute for the most directly comparable GAAP measures. Vistra Energy's non-GAAP financial measures may be different from non-GAAP financial measures used by other companies.

Vistra Energy uses Adjusted EBITDA as a measure of performance and believes that analysis of its business by external users is enhanced by visibility to both net income prepared in accordance with GAAP and Adjusted EBITDA. Vistra Energy uses Adjusted Free Cash Flow before Growth as a measure of liquidity and believes that analysis of its ability to service its cash obligations is supported by disclosure of both cash provided by (used in) operating activities prepared in accordance with GAAP as well as Adjusted Free Cash Flow before Growth. Vistra Energy uses Ongoing Operations Adjusted EBITDA as a measure of performance and Ongoing Operations Adjusted Free Cash Flow before Growth as a measure of liquidity and Vistra Energy's management and board of directors have found it informative to view the Asset Closure segment as separate and distinct from Vistra Energy's ongoing operations. The schedules attached to this earnings release reconcile the non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with U.S. GAAP.
